Teamcenter Medical Device Solution

Reduced development times

Reliable compliance with regulations

Easy communication

In product development for medical device manufacturers, avasis' PLM solution "Teamcenter Medical Device Solution" ensures process **security** with a DHF based on a phase-gate project. All product-relevant data originate from **one source**, whereby all changes can be tracked at any time. The user-friendly Medical Device Solution guarantees a uniform view of the **project progress** at any time.

The **sophisticated submission management** supports FDA, ISO 13485 as well as other country-specific processes and thus becomes even more efficient.

[more >](#)

Teamcenter with the Medical Device Solution is an all-round talent:

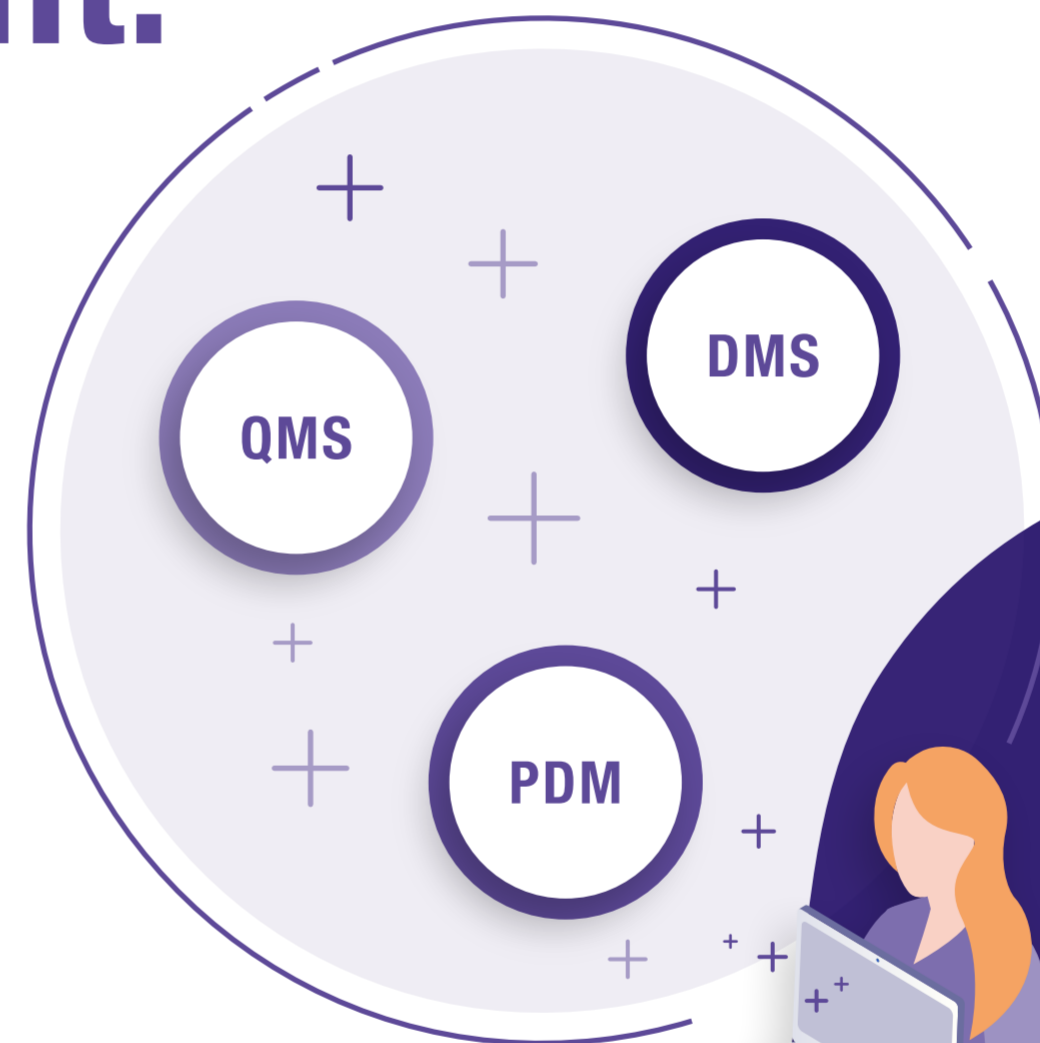

Document Management System (DMS)

Quality Management System (QMS)

Product Data Management (PDM)

it combines all three systems in one enterprise platform

avasis – your partner

avasis, partner of Siemens Digital Industry Software since 1997, knows the legal requirements as well as the regulations of medical technology from experiences in many projects. It is our goal to respond to your needs, your processes and requirements and to question them where necessary. In doing so, we always guarantee the feasibility and practical relevance, from the assessment to the implementation of Teamcenter Medical Device Solution. Together with the customer, we digitise the complete development/manufacturing process and thus simplify and accelerate the approval process.

the below values are lived by avasis through its employees:
engagement, reliability and inspiration

Ralf Thür
CEO

A handwritten signature in blue ink, which appears to be 'R. Thür', written over a horizontal line.

Satisfied customer

Roger Stadler
CEO, icotec AG, Altstätten

«In all development processes, throughout our product range, we rely on professional consulting. After all, we want to get better every day. So far, not only has avasis answered all open questions with great clarity, but they have also helped us to be prepared for the future».
